

Aero India organizes International Aerospace and Defence Exhibition in association with the Confederation of Indian Industry (CII).

Overview

Aero India organizes International Aerospace and Defence Exhibition in association with the Confederation of Indian Industry (CII). Aero India 2009, the 7th International Aerospace and Defence Exhibition, was organized by the Ministry of Defence in association with the Confederation of Indian Industry, CII, from 11th to 15th February 2009 at Air Force Station Yelahanka, Bengaluru.

Challenge

To get a secured dedicated server at the optimal cost and the best support.

Solution

- Windows Server 2003 Standard SP2 with R2 (32 bit)
- Website Panel # Microsoft SQL Server 2005 Express (32bit)
- 4 GB RAM
- Reboot KVM over IP
- 100 Mbps Public & Private Networks
- 2000 GB Bandwidth
- 1 IP Address
- 4 Public IP Addresses
- Non-RAID
- Default Disk Partitions for Operating System Installation
- 250GB SATA II

Key Benefits Offered By ZNet Solution

- 24*7*365 Support with Escalation matrix
- 50 GB Remote Backup
- Full administration on OS
- Upgrades installation on Control Panel/OS
- Support in troubleshooting & general queries.
- Remote portscan of machine to locate intrusive services
- IP Address Verification (Additions/Removals if needed)
- CPU utilization check (verify all CPUs are functioning and no runaway applications are slowing server down)

- IP filtering verification (all unused ports of server on locked down)
- Disk space verification (checking drives to verify available space)
- Log file checking (rotation, deletion, cleansing) of log files
- Check/clean temp directories (permissions, clean out aging files)
- Verification of last backup date and destination (if back up is enabled)
- Windows 2000/2003/Redhat - service packs, hot fixes, and upgrade
- Uptime report
- Service and daemon performance auditing and security
- Locating potentially hazardous third party programs
- Utility installation service (batch scripts, admin tools)
- Application audit and advanced monitoring suggestions
- Emailed report to customer
- Anti-virus updates and scan
- Documentation of quick response recovery actions
- Servers under nagios monitoring system.

Result

Aeroindia is a government organization. They bought server with ZNet initially and moved to other service provider due to lower price. They joined ZNet back and are now satisfied with ZNet services.
